

Video coaching

Virtual face-to-face coaching sessions; offered anywhere and at your convenience

Private and confidential, Video coaching for your employees provides real-time coaching using your computer, industry leading video conferencing software and a webcam.

Convenient and secure

Our Video coaching service uses industry leading video conferencing software with many safeguards, encryptions and firewalls ensuring login credentials and all communications are kept private and safe. Attend your coaching session from your office - or just about anywhere with a high speed internet connection. Video coaching is compatible with computers and tablets.

Video coaching is best suited for those who:

- Have busy schedules
- Live in remote regions
- Have limited mobility
- Have exceptional privacy needs

System requirements

You will need a high speed internet connection, webcam, telephone and will be required to install software.
